

The FCC should not implement any proposal that would lessen Indiana's Telephone Privacy law protections. Prior to signing up for the "NO CALL LIST" we would receive anywhere from 4 to 5 phone calls PER EVENING. After the law was implemented, I may receive 1 call/month. This is WONDERFUL. It is very irritating to have to run to the telephone only to hear a recorded voice or someone begging for donations to a cause that I have never heard of. We are home for very few hours, and to have the telephone ringing constantly with these kinds of calls puts everyone on edge, makes tempers flare, and generally ruins any kind of family time we may have together.

Please do not lessen Indiana's "No call laws" They have made a tremendous difference in our evenings at home.

Thank you for your time. Jane Norris
